

Flat-Coated Retrievers

Todd / Céleste

March 2012

www.knightcastle-fcr.com

This is Céleste's last litter. She was bred during the week of January 15th 2012 and these puppies will be the result of something I consider very special: the first North American combination of the Italian bloodlines 'Serilde'. Todd is the son of Serilde Qualcosadatenera (Kai) and Céleste is the daughter Serilde Velenocelestiale (Bowie).

I am expecting stylish and graceful puppies, full of energy and tenderness at the same time, but also great working dogs and excellent representatives for the breed.

Céleste has produced two litters so far. From her first one with Swallowsflight Excaliburs Enigma (Exel) you can see in the rings or the fields the fantastic Jester, Raven, Balin and Holly. From her second litter with Fishercreek A Star Is Born, my little Forrest is already a Champion, a Best Puppy in Show winner and is on its way for his American Championship, defeating champion dogs. His brother Chevy needs only one point to be Champion.
